Dear Prospective Partner:

Family Health Ministries (FHM) is a nonprofit organization dedicated to improving the lives of the underserved in Haiti. It is our goal to create a better tomorrow by building and sustaining healthy families and healthy communities.

Currently FHM supports programs in maternal and child health, nutrition, education and church expansion for communities in need. Learn more about FHM at <http://familyhm.org/>.

On May 1, 2010, Family Health Ministries is sponsoring an event called "Celebrate Haiti!" at Duke Gardens. The purpose is to raise funds to provide healthcare services for Haitian families living in poverty. Family Health Ministries will also mark ten years of service at this celebration.

It is our hope that you will consider sponsoring our event. In return, we will acknowledge your organization's contribution. (See attached for details.)

We are happy to answer any questions about Celebrate Haiti! and about our collaborative programs that serve families who are poor in three communities in Haiti. Please feel free to call our office at 919-382-5500 or contact Janet Portzer at Janet.Portzer@familyhm.org.

We value your consideration and thank you for being willing to help us bring quality healthcare to families in underserved communities.

Sincerely,

Kathy Walmer
Executive Director

David Walmer
Board Chairman

Building Healthy Families, Healthy Communities, and a Better Tomorrow
